PROFFESIONAL SUMMARY

Civil engineer with hands-on experience and on site supervision. Project coordination and technical support for engineering projects. Proficient in using AutoCAD, SAP, Microsoft Office and STAAD for design and analysis. Skilled in data collection, plan preparation, and attention to detail.

PROFESSIONAL EXPERIENCE

Iron Mountain (clutter) | Grand Prairie –Texas | Mar 2025- Present

Mover/Driver lead

- Moving, packing, loading and unloading.
- Customer service representative.

Goldsmith Construction | Keller, Texas | Mar 2023 - Mar 2025

Handyman

- Assisted in commercial building remodeling projects, including wall painting, floor restoration, and installation of doors and windows.
- Ensured compliance with safety standards and building codes during construction activities.
- Collaborated with project managers and engineers to meet project deadlines and quality expectations.

Mohammad Albader Architects | Amman, Jordan | Feb 2022 – Dec 2022

Site Engineer

- Supervised structural works on residential and commercial projects to ensure compliance with approved drawings and specifications.
- Coordinated with structural engineers and contractors to resolve framing and foundation issues onsite.
- Reviewed shop drawings and assisted in preparing inspection reports for structural elements.

Arabtech Jardaneh | Amman, Jordan | Feb 2021 – Feb 2022

Civil Engineer (Quantity Survey & Construction Engineer)

- Conducted structural analysis and design of reinforced concrete slabs, beams, and columns using SAP2000 and ETABS under senior engineer supervision.
- Prepared structural drawings and shop drawings using AutoCAD for multi-story buildings.
- Performed quantity takeoffs and prepared BOQs for structural works.
- Reviewed construction practices onsite to ensure structural compliance with design specifications.

EDUCATION

- **The Hashemite University** **Fall August 2016 –January 2020**
(Zarqa, Jordan)
Bachelor of Engineering in Civil Engineering.
Bachelor's Degree in Civil Engineering from an ABET accredited program.
Passed FE at 2/2025 and have EIT certification.

Skills & Traits

- **Technical Software:** familiar in CAD, SAP, and STAAD for design, analysis, and project planning.
- **Data Collection & Analysis:** Experienced in collecting, analyzing, and reporting project data to support decision-making.
- **Attention to Detail:** Strong focus on accuracy and precision in all aspects of engineering support.
- **Project Coordination:** Skilled in assisting with project planning, scheduling, and execution.
- **Problem-Solving:** Capable of identifying and resolving technical issues efficiently.
- **Team Collaboration:** Able to work independently or as part of a team to achieve project goals.

ADDITIONAL INFORMATION

- US Permanent resident
- Texas driver license
- Strong work ethic with the ability to handle complex tasks under pressure.
- High level of computing skills, including proficiency in Microsoft Office Suite (Word, Excel, PowerPoint).
- Willingness to learn and adapt to new technologies and methodologies in engineering.
